Giant Mastodon EVERBEARING

This wonder berry is nationally known and has stood all tests by commercial growers. A real fancy Everbearing that you will appreciate and admire. No practical grower can afford to overlook Mastodon Everbearing. Profitable crops have proved it a winner. A crop that you can depend on every year. An acre of Mastodon, 8,000 plants, will put more cash in your pockets than 25 acres of ordinary farming. A real opportunity for any farmer or market gardener to realize a daily income. The quickest profits from the least amount of ground. The Everbearing is a real money maker. We hold a United States record, \$2,059.20 from one acre. Think of it! Set and harvest in the same year.

Fruit of the finest flavor, extremely large. The huge size of the berries is truly marvelous. Just like little apples. Nine Strawberries will top a quart box.

The largest berries on record, and the nearest perfect in every way, size, color, sweetness, flavor and hardiness. Mastodon has a record of 5,520 quarts per acre. Sure an ideal berry. Easy to sell from its appearance alone. A fancy berry in the truest sense of the word. For a quick money crop, plant the Mastodon this spring, just as early as your ground can be worked. Earlier the better.

After plants are set out keep off blossoms until July 1st. Then from July 15th you can pick great masses of ripe delicious Strawberries every day till snow flies. Then another big crop in 1942.

Our hardy northern grown plants are the best for all climates. Mastodon and Gem Everbearing have proven the leaders of all Everbearing. All other varieties are still in the

testing stages. We can assure you that you will start right with our extra large,

certified new ground, fresh dug plants, hand cleaned and tied with red string. Make preparations right now. Write us for special prices for larger quantity. 20% deposit will book your order now. Balance at shipping time.

New Bush EVERBEARING

This peculiar Everbearer grows on large bushes 10 inches high, 15 inches across. We counted 15 fruit stems loaded with fruit from one plant. Entirely unlike any other Everbearer. Multiplies its new plants from crowns. Owing to this it is very productive. Berries large as Mastodon. Some specimens larger, but honey-sweet. Finest quality. Ripen up even with attractive dark red color. Bears 60 days after set out. A real giant berry. The Wayzata, Rockhill and our BUSH Everbearing are all the same variety. Large new ground plants. Tied with binder twine.

New Gem

EVERBEARING

Gem Everbearing has made a fine record for nine years. A moneymaker and a favorite Everbearing for commercial growers. Big profits from Gem. Two crops a year. Pick all summer and fall until snow flies. Ninety days from plants to profits. Three weeks from blossoms to berries. Fruits over 130 days. Why wait a whole year, when Gem will bear luscious fresh Strawberries for home or market this year? Truly a profitable investment. Gem is so easy to grow! Thrives in any soil, any place. Makes plants freely. The berries are large, smooth, firm and ripen a very sparkling scarlet-red all over. Produces enormous sweet and tasty berries that will just melt in your mouth. See the dish of Gem on front cover.

We think that the fruit of this sensational New Gem is nature's most precious gift to mankind. There are only four secrets in growing Strawberries. Dependable stock, early planting, clean cultivation and blooms picked off for 60 days. Any good garden soil, old potato patch or any moist soil will be an ideal place for Everbearing. Set 12 inches apart in row with rows 3 feet apart. Gardens can be planted closer. A real opportunity awaits you if you start with our husky certified new ground plants that defy drought, heat and frost. Plants tied with black string.

EVERBEARING TRANSPLANTS

We are very much pleased to offer our customers for the first time this spring our new SUPER-STRAIN plants. Two varieties, MASTODON and GEM Everbearing transplants. All choice plants. Extra large. Double root system. Fall set. Extra growth. Ready to bear. Hardy, robust plants with plenty of vitality. There is no substitute for our transplants. You will notice the difference at fruiting time. So easy to grow. Set your table this year with the nation's finest fruit. Don't GAMBLE this spring. Buy from OAK HILL NURSERY and see the difference. All plants are grown on fertile, new ground. Plants just made to order for those who want a few choice Everbearing plants for the garden.

Minn.1166 EVERBEARING

We feel very proud to offer you this new variety. Finally we have found a real Everbearing that will out-yield Mastodon or Gem. Good plant maker. Mammoth berries with a honey-sweet flavor. Solid dark red color. No green tips, firm, bears extra heavy from July until winter. Plant Minn. 1166 for dark red table berries to eat. We think it is the best.

The heaviest producing variety in our 24 years of growing Everbearing. Because of its outstanding performance this variety will soon become the leading Everbearing. Be plant wise and order early. Tied with blue string.

Michiana EVERBEARING

Michiana Everbearing is the last degree in Strawberry perfection. Plants look different from all other varieties. Different colored leaves, size of fruit and even the plants grow larger. A variety that will surely please you. Amaze your neighbors with delicious Strawberries 10 weeks after planting and then continue until winter. This is a mighty fine Strawberry, enticingly rich and sweet, good color, and has a wonderful future. Why be satisfied with one crop when you can stretch Michiana to bear five months this year? Tied with purple string.

Premier

How would you like a real early Strawberry? Well, Premier is TOPS. A berry without a fault and with perfect satisfaction wherever grown. One week earlier than any other variety in most localities. The Premier berry is medium dark, large size, above the average, and very firm. Solid color, bright and glossy. They are beauties in a quart box. This famous variety is practically frost proof. Under natural conditions over \$1000 can be made from an acre of Premier. This cannot be done from any other farm crop.

A profit-making commercial Strawberry and a world-wide favorite of proven success. Growers know the value of Premier and the consumers demand it. It is a mortgage lifter for any grower. High acre yields and high acre returns. A good early product on the market or on a highway fruit stand. A sure winner. So plant Premier. Plants tied with yellow string.

EXTRA

EARLY

Senator Dunlap

The Dunlap is the most popular Strawberry in the United States. Known everywhere. Fruit firm, of excellent quality. Good size and an unusually heavy bearer. Has a wide range of soil and climate. Yields big profits for growers. An old time favorite. Plant Dunlap for preserves and for general use. Our biggest plant seller.

Dunlap is the easiest Strawberry grown. What is better than a good fresh shortcake or a can of fruit from the cellar in the winter when snow is piled mile high?

Extra large new ground, hand cleaned, heavy rooted plants this year. Plants tied with brown string. Order early.

Catskill

An outstanding Strawberry of the highest quality. There is something indescribable about Catskill. Its rich, sweet flavor commands admiration from our roadside customers. Many of our customers say that Catskill have produced the most magnificent berries they have ever seen. So enjoy real Strawberries.

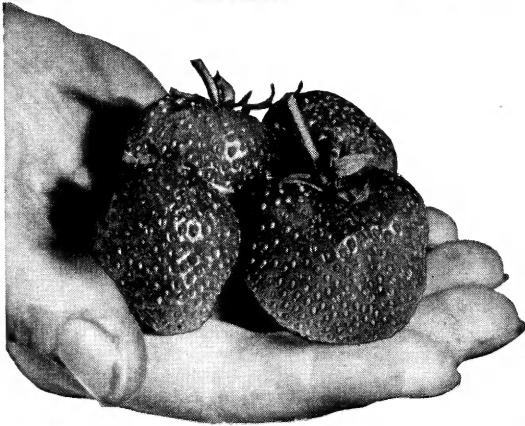

We picked eight quarts of Strawberries without moving any more than for what we could reach. Fruit super large, 18 berries filled a quart. Beautiful dark red Strawberries that are sweet and juicy, different and satisfying. A flavor that you will never forget. Catskill also will increase your profits with the fanciest Strawberries that you have ever seen before. I would not fail to plant Catskill this spring. Hand cleaned, state certified, new ground plants. Tied with green string.

Frost King

HOW would you like a real late double duty Strawberry that is frost-proof and bears a full crop every year? This astonishing new variety will mark a new era in growing Strawberries. Especially for the northern growers where late frosts occur and other varieties fail. Frost King is a gold mine at harvest time. We are now convinced that this new variety is the largest and best extra late Strawberry grown.

Frost King was an eye opener to our Strawberry customers at our roadside fruit stand. Each berry looked as if it was varnished. Super large sparkling red choice Strawberries. Around 30 berries filled a quart box. A berry like this will always compel attention. A crate of Frost King is a solid blaze of color. They look very handsome and appetizing. This berry has great quality, is firm for shipping and very sweet and luscious.

It will bear enormous quantities of Strawberries that ripen after all other varieties are gone and continue for a long season. With us they bore until our fall-bearing started. So we have Strawberries from Decoration Day until Thanksgiving. On July 4 we picked \$12.00 worth of berries from 75 plants set the year before.

We grow this variety extensively for market as it is a tremendous bearer.

Just think of it—400 16-qt. cases, one variety, in one day at the Benton Harbor Market, \$800.00. Regular cropper year after year. Frost King will top them all—quality, color, super size plants, leaves, stems, fruit—and always bring top-notch prices. Because it is off season fruit. Extra late. A real opportunity to make some money. The old saying is, "All that glitters is not gold," but Frost King is as good as gold.

Plant Frost King as they will lead the way to economic independence. Will pay big dividends on low investments. Put your idle acres to work this spring. Our husky new ground plants are all certified by the States of Michigan and Indiana. Plants tied with lavender string.

Just a word to the wise: Order early, as plants of all kinds are very scarce this year.

Jumbo Berry

The Jumbo Berry is the largest of all berries known. Fifty of the largest berries fill a quart box, where blackberries take about 200 berries. Easy to pick this new super size fruit. Jumbo Berry is the new sensation of all the berry growers. A real opportunity to growers for a new fruit that is in great demand. Plants are hardy. Stood 17 degrees below zero. Drought resistant, very prolific.

Jumbo Berry is a cross between Loganberry, raspberry and the blackberry. The Boysenberry and our Jumbo Berry we believe are identical. Fruit dark wine color. It is the sweetest and most delicious flavored fruit that I have ever tasted. You will never forget the taste of the Jumbo Berry. Does well staked like dewberry. We think it is one of the most wonderful crosses ever made. Make your garden more fruitful with JUMBO BERRY this spring. You will like them.

Everblooming Lilac

Here's a real thrill in a shrub. Vastly different than anything you have ever grown. For brilliant display of color, we know of no other shrub that surpasses this marvelous new creation. From July until frost, it is always in bloom. Fragrant and fine for cutting. Year after year it will be a beauty spot in your garden. Unusual and rare. Few people have it. Be the first in your locality. One bush, 25c; 2 for 45c; 5 for \$1.00.

Chee Forage Grass

A new Chee Forage Grass introduced by the South Dakota State College. Brought to the United States from one of the driest spots of Siberia. It will grow to a height of 8 to 10 feet in a season, with even less than 8 inches annual rainfall on almost pure alkali soil. Consider this a poor type of soil. On ordinary soil it will grow with equal vigor, not quite as tall but bushy. It makes excellent hay and can be cut two or three times. It may be pastured but will produce more forage if cut for hay. It is a perennial and will last for years and spreads like wild fire from roots just under the ground. With us it stayed green all winter and was already 12 inches high March 15th last spring. Starts very early in the spring and grows fast. Chee Grass does not seed and can be grown from clump plants or stolons only. It can be planted in rows 8 to 12 inches apart in the row, with rows 36 inches apart. Cultivate like corn and you will soon have a solid field. If no longer wanted it can be readily plowed under if field is wanted for other crops. The leaves are quite wide, dark green, very soft and fine. Makes wonderful quick feed when feed is badly needed. Grows anywhere. Defies drought or wet weather. Do not fail this spring to try this wonderful CHEE GRASS. 12 clumps, 25c; 25 for 50c; 50 for 75c; 100 for \$1.35; 300 for \$2.00.

Aunt Mary's Sweet Corn

Here is something that is extraordinary in Sweet Corn. First seed dates back to the pioneers of 1812. This seed was treasured and very carefully guarded from one generation to another. First seed sold to the public at \$17.50 per pound. The only Sweet Corn in the world that does not get tough. Stays in milk for roasting ears over 30 days. Other varieties get tough in eight days. Requires artificial heat to cure for seed. Could be easily called everbearing. Ready for table in 80 days.

Aunt Mary was our best seller at our roadside fruit stand. It was advertised by the people who ate it. A real money maker for us at 25c per dozen through the season. The first grower in any locality will outsell his competitor with extra profits.

The real truth about Aunt Mary's Sweet Corn sounds like a "fish story," but we hope to prove to you the merits of the world's sweetest Corn. Stalks grow large with two extra large ears with kernels of shiny pearl-white. Plan to plant Aunt Mary. Pkt., 10c; ½ lb., 25c; lb., 35c; 3 lbs., \$1.00; 5 lbs., \$1.50; 10 lbs., \$2.50.

Can also supply seed. Pkt. 1,000 seeds, 10c; 3 for 25c.

Lawn Grass

This is new. A Lawn Grass that has several distinct advantages as follows: It does not require mowing or sprinkling. A solid carpet in one season. Undoubtedly the most hardy lawn grass for dry conditions. Produces no seed and throws up no stalks. It spreads by means of runners. The creeping bent of the desert. Makes a soft, thick, beautiful green, quick lawn. Creeping dense mat on top of ground and joints every 2 inches that take root and make another plant. Each branching out many more young plants or stolons. Set plants 12 to 18 inches apart each way. This will cover the ground in one season. 100 plants is enough for 140 square feet of lawn. 50 plants for 55c; 100 for \$1.00; 200 for \$1.75.

Red Bush Cherry

Red Bush Cherry is one of our best roadside sellers. We sell hundreds of quarts each year. Red Bush Cherry bears its fruit in clusters of six to eight. Easy to pick. Fruiting two or three thousand on one vine. Larger than the biggest sweet cherry. Very delicious flavor when eaten as picked from the vine. Used for canning and preserving. Children will like them. Sweet as sugar. If once planted, Bush Cherry will come up each year. They bear very early and are everbearing. Easily grown. Was created from the tomato family. Try a packet, you will be delighted with them. Grow same as tomatoes.

Packet, about 500 seeds, 10c; 3 for 25c.

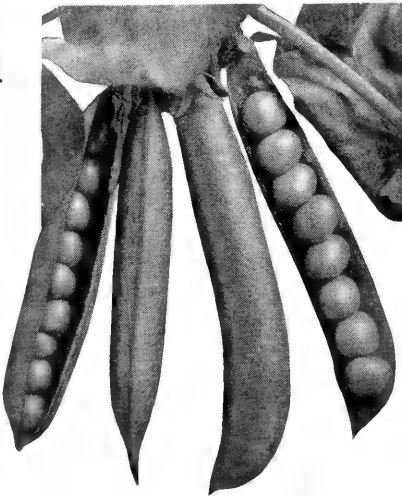

Kasha

The New Proso WONDER GRAIN from Siberia for poultry and cattle. Sow early or late in rows 2 feet apart. Grows 3 to 4 feet high. Stools and branches making 15 to 25 seed heads on 1 plant. Over 1,200 grains counted on 1 head. You can raise an enormous grain crop in 60 days. Defies drought. Ounce should grow 2 bushels of fine seed for your chickens.

5c	10c	25c

Early Curly Leaf Lettuce

This splendid loose leaf lettuce is very early, grows rapidly. Ready in 45 days. Leaves are exceptionally tender, crisp and sweet. Curled, bright green. It is an evergrowing, cut and come again. Pkt., 2700 seeds, 5c; oz., 10c; $\frac{1}{4}$ lb., 25c.

Honey Rock

Gold Medal Winner. New early productive Muskmelon. Almost round. Heavy netted. Flesh deep orange with a thick, rich, spicy, sugar, sweet flavor. Good shipper. Always easily grown. Try it. Pkt., 250 seeds, 10c; 1 oz., 15c; $\frac{1}{4}$ lb., 35c.

Giant Heart of Gold

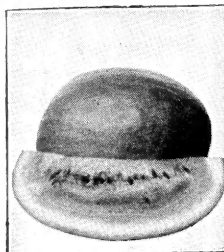

The KING of all Muskmelon in size. Weighing 10 to 15 pounds. Rich deep orange, flesh 4 inches deep. Four controlling factors determine the real value of this variety — the size, earliness, delicious flavor and shipping quality.

Pkt., 250 seeds, 10c; oz., 15c; $\frac{1}{4}$ lb., 35c.

Sweet Siberian

Most folks like a real good watermelon. Well, this one will fill the bill. Extra early 50-day melon from Siberia. Flesh a rich golden yellow. Medium size. The sweetest and most delicious melon that you ever ate. Our Melon customers call them HONEY HEARTS.

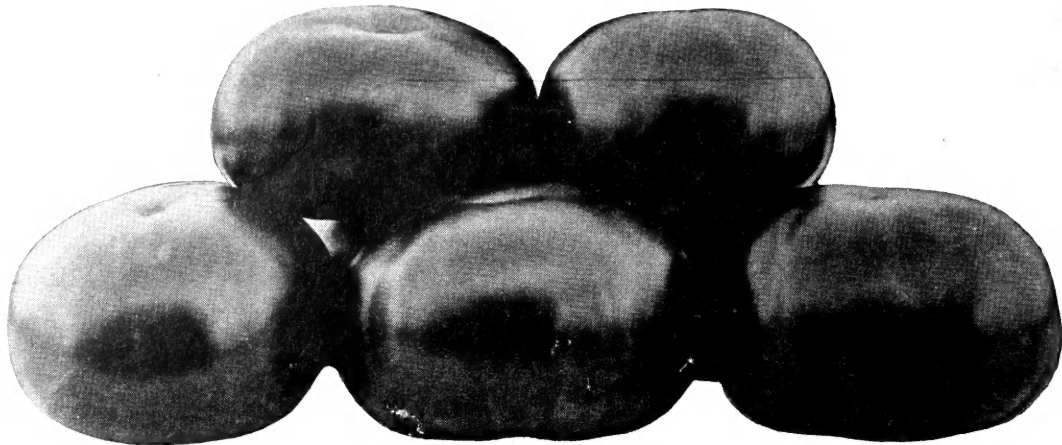

Pkt., 150 seeds, 10c; 3 for 25c; 6 pkts., 40c.

Honey Gem

The finest and sweetest Watermelon that we have ever tasted. It is our best selling melon to our road trade. After they have once tasted this melon they are right back after more. This melon is of large size, medium early, has no core, flesh is a rich bright scarlet-red and sweet as honey.

Pkt., 150 seeds, 10c; oz., 15c; $\frac{1}{4}$ lb., 35c.

New Burbank Tomato

This is one of Luther Burbank's marvelous new creations. A Tomato by far the earliest and best. Just think of it! From seeds planted in open ground, will bear fruit earlier than plants from a hotbed. Fruit ripe week to ten days earlier than any other extra early Tomato known. Ripens up perfectly without crack, spot or blemish. Color bright red, and smooth. A continuous bearer throughout the season. A firm, large Tomato of superior quality. Fruit has no open cavities. Slice solid as a beefsteak. Plants resist wilt and other Tomato diseases. Unlike other Tomatoes, the skin peels freely from the rich, firm flesh. If you want a real early Tomato, do not fail to plant this wonderful Burbank Tomato. **WORLD'S EARLIEST.** Packet about 500 seeds; ounce about 7,500 seeds. Postpaid, pkt., 10c; $\frac{1}{2}$ oz., 25c; oz., 40c; 2 ozs., 75c.

NEW CURRANT TOMATO

The most interesting fruit at our nursery this year was the Currant Tomato. We sold them at 15c per pint. They sell because of their appetizing appearance. Fruit is borne in immense clusters of 23 to 30 Tomatoes. The clusters and fruit resemble currants, with thousands on a vine. They look and grow like currants, same size, very sweet and tasty. Vines look real lush and different from all other Tomatoes. Pkt., 600 seeds, 10c; 3 for 25c.

New Super Giant 9-Ear Corn

This is a new 100-day White Flint Field Corn that is rare and grows to a giant height. A better sight cannot be imagined than walking with your friends through a forest of corn with stalks 15 to 20 feet high. Some of the ears were 10 feet from the ground. Had to use a ladder to get them.

World's tallest Corn. You must grow this giant Corn to believe it. It is unusual to see three ears to a stalk on common corn. But four, five, six, seven, eight and nine ears to a single stalk is a miracle. Not only that, but you also get the Super Giant height. A real robust grower with four different sets of roots.

A fine ensilage Corn. Also a splendid exhibition variety. Be the first to grow it for your next fair. One customer won over \$100.00 last year with a stalk over 20 feet high. All from one packet of seed. Sorry we sold out so early last year. The demand will again be great for seed this spring for our new Super Giant 9-Ear Corn. So order early. Packet 100 seeds. Pkt., 10c; 3 for 25c; 6 for 45c; 12 pkts., 85c.
